

2XS[®] CLUB RULES

Watersports have been on West Wittering's private beach since the late 70s. 2XS took over the Club in 1991 – since then we have worked very hard and spent many hours with locals, WWE & CME board members and local councils creating a workable safety system. We have strong support from West Wittering Estate, the landowners of the beach.

Our aim at 2XS is to ensure the safety of all our members and beach users. We pride ourselves on running a safe location for kitesurfing and windsurfing.

All members must abide by the decisions of the Safety Officer/Club Manager. If in the interest of safety, particularly in the height of the summer, if it is deemed necessary, the Safety Officer may stop windsurfing/kitesurfing temporarily. We have a rescue ski on standby, 7 days a week, between 1st March – 31st October.

- Guests must follow the club rules, have 3rd party insurance, and wear a club bib.

KITESURF GUEST

- We do not offer daily membership for kitesurfing (due to the safety rules)

KITE RULES

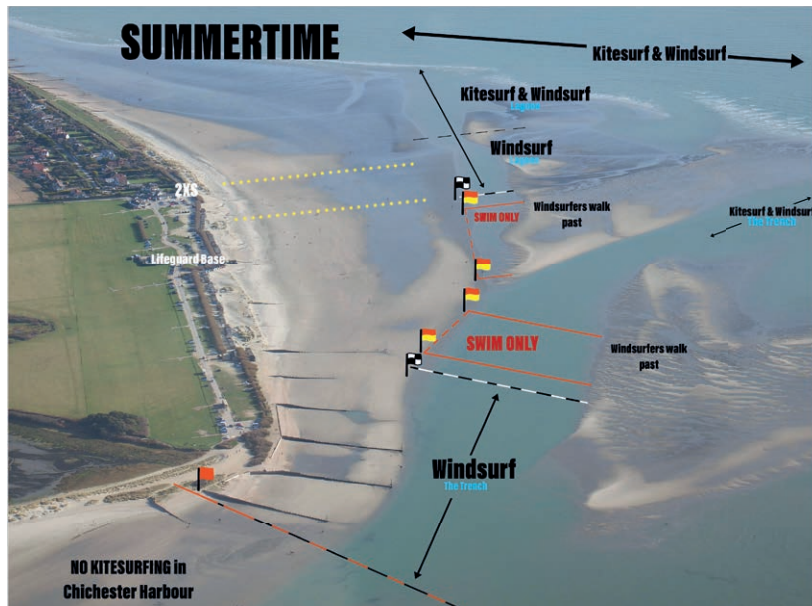

- **No launching at high tide – launching only after tide is one meter to seaward from the green cardinal marker on groyne 14, which is the first groyne to the right after the windsurfing club.**
- Kite surfers must keep at least two line length (i.e. 50 meters) or more from the shoreline; do not over fly the beach.
- Never 'over fly' people on the beach, footpaths or horses. Be especially careful of children who are drawn to all kites thinking they are toys, but generally do not realize the dangers that a power kite can present.

- All kites must be fitted with a safety leash to the harness. Please test safety systems prior to launching kite. Carry kite safety knife
- No more than 30 kite surfers out at once.
- Launching and landing through the yellow buoyed only
- Kite to be launched pointing to the sea
- Kites must not be left unattended, unless they are secure with sand bags. Lines **MUST** always be detached when kites are left on the beach

- Kite surfers must take absolute responsibility for their own safety, and other beach and water users, Ensure there is enough room to launch and land safely.
- If you see a kite surfer out of control or about to launch dangerously – help them. Collectively kite surfers can create a safer environment, those who act irresponsibly will jeopardize the sport for everyone.
- No Jumping on land
- Novice kite surfer must be able to kite within the club rules, or will need further lessons before venturing out. (please ask advice at the club)
- Ask for assistance for launching and landing
- Kite surfers should keep clear of other watersport users, preferably downwind.
- Kitesurfers avoid jumps/transitions on water if there is anyone downwind.
- If you are too close to another windsurfer or kitesurfer put the kite into its neutral position and allow them to pass.
- The decision will be taken each day in the summer whether there is suitable space and conditions for kite surfing by the Club Manager

LAGOON/TRENCH/CHICHESTER HARBOUR

- Be aware from red flag to seaward tip of Hayling, no kitesurfing in Chichester harbour
- No kiting in lower trench
- Use of trench and lagoon changes summer and winter. This also changes annually due to sandbars changing. See diagrams of summer and winter kitesurfing windsurfing.
- Please keep clear of all lessons

LIFEGUARDS/ZONES

- Red/Yellow Flags – swimming zone only, no kiting or windsurfing (walk past to seaward)
- Black/White Flags – Hard craft zone. Windsurf/kiting from flag point. See diagram
- Red Buoy – This will mark a point where you can kite/windsurf up to in the water, incase the flags are hard to see.
- The WWE lifeguards will keep swimmers contained in the zoned area. If this is not happening we will chase the situation up on your behalf, but please avoid swimmers in the mean time.
- Please take advise from WWE lifeguards when required

WINTER

- Members must wear their bibs throughout the winter months
- Rescue cover stops as of the 1st Nov – 28th Feb
- Call 999, ask for coastguard, in the event of an emergency
- Club is still in use and rules still apply

RESCUE

- Rescue cover from March 1st – 31st Oct, ski on standby
- The 2xs safety officer scans water every 15 minutes
- Members need to stay in line of sight of club
- Use distress signal for attention, stay with kit
- Members kiting/windsurfing too far out to sea cannot be seen!

SAFETY RECOMMENDATIONS

- Assessment of weather conditions is essential, in particular the size of kite/sail for wind strength/ability – check kit size at club office.
- Always check the weather, wind speed and direction and tides, use our live feed and webcam through 2xs.co.uk/weather
- Starboard tack has right of way over port
- Collisions must be avoided at all costs
- Sailor going through surf has right of way to someone coming in
- Sail/kite with others, avoid going out on your own
- Avoid strong tides/off shore winds
- Maintain and check your kit
- Don't go out if the conditions are not suited to you, or you don't have the right kit.
- Carry spare rope, flares, knife and phone on the water
- Be aware of changing depths, the sand regularly shifts and depths can change
- Personal safety equipment such as helmets, float jackets/BA's are recommended to wear.

HIRE PACKAGE

- To reserve kit, call the day before. We cannot guarantee available kit if you just turn up. (No reservations, we will hire out kit)
- If you damage any equipment, you will have to pay for the repair/replacement
- Hire is available from 15th March 31st October between opening hours of the Club (9am – 5.30pm)
- Hire members can switch between Kite/Windsurf/SUP/Surf (subject to ability level)
- Membership is not transferable
- Keep within club rules and safety recommendations
